

MSA

Millwork Sales Associates, Inc.

Millwork Sales Associates is working hard to become the leader in regional, national and international millwork sales. MSA provides more than 125 years combined millwork sales experience and is putting this experience to work through quality representation of well-established, reliable millwork manufacturers. The MSA staff brings the best in product knowledge, customer service and technical expertise to answer your questions and fulfill your needs.

RESOURCES MSA offers a variety of services to ensure customers receive the right product at the right time. This means ongoing support before, during and after the sale.

Product Sales MSA's strength is representing quality manufacturers. A thorough understanding of all represented product lines enables the ability to provide the best fit to customers' needs.

Sales Support MSA works to make the order cycle a seamless and worry-free process by taking the guesswork out of millwork and being there when customers need answers.

Technical Support MSA's support staff provides the know-how to resolve any millwork engineering questions. Dimensional drawings can be provided on any of MSA's represented products.

Marketing Support MSA can help facilitate greater sales for our customers by providing design assistance with magazine and newspaper advertising, sales flyers, brochures, and web site layouts.

TERRITORY MSA's sales territory is focused in the southeastern United States with accounts outside of this area as far away as Vancouver, BC. In addition to servicing a broad sales area, MSA represents and manages suppliers on an international basis as well
